1. COMPLAINANT'S STATEMENT — FULL NARRATION

The complainant states that during an annual concurrent audit conducted between 18-Dec-2025 and 08-Jan-2026, serious irregularities were detected in the Ansal Plaza branch (Delhi) of the Bank of Hindustan. It was found that between April 2024 and November 2025, the branch management sanctioned and disbursed 13 'gold loan' and 9 'cash credit' facilities totalling ■11,42,00,000 against collateral that was either over-valued, fictitious or never deposited. The audit further revealed that branch-level software entries were made in the names of 11 dummy borrowers, and the sanctioned amounts were routed to accounts controlled by the then Branch Manager, Shri Suresh Yadav.

A forensic review of the CBS (Core Banking Solution) logs established that loan limit entries and disbursement postings were authorised from the login credentials of the accused Suresh Yadav and Vipin Arora between 01-Apr-2024 and 30-Nov-2025, mostly after business hours. Physical verification of collateral revealed that the gold ornaments pledged for loans totalling ■7,00,00,000 were never deposited in the branch strong room, and in place of the documented jewellery, the branch possessed only an unverified locker inventory. The cash credit accounts show fund rotation among 11 accounts with a common set of mobile numbers and KYC details.

The complainant states that prima facie a criminal conspiracy exists among the branch officials and the borrowers to misappropriate bank funds through fabrication of loan documents and false collateral records. The bank has conducted a preliminary inquiry (PIN No. 2026/BH/017) and requests the CBI to register an FIR and investigate. No fraud has been acknowledged by the accused; a charge has not yet been recovered.
