RESPONDENT (PARTY B)	M/s Vector Systems Ltd., Tower B, Cyberpark, Chennai — 600041
REFERENCE	Data Services Agreement No. DSA-2024-318 dated 03-Sep-2024
AMOUNT CLAIMED	■58,60,000 (retainer + usage fees) + interest @ 18% p.a. + costs

1. THE AGREEMENT & SERVICES RENDERED

Orion Analytics entered into a Data Services Agreement with Vector Systems on 03-Sep-2024 for provision of (i) a custom predictive-analytics platform for inventory optimisation; (ii) managed data-engineering services; and (iii) 24×7 API support, against a monthly retainer of ■6,20,000 (fixed) plus usage-based fees at ■0.85 per API call. The term was 24 months, with a notice period of 90 days.

2. PERFORMANCE & INVOICES RAISED

The claimant rendered services continuously and issued invoices: (i) INV-8891 dated 05-Oct-2025 (retainer) ■6,20,000; (ii) INV-8920 dated 05-Nov-2025 (retainer + usage ■4,10,000) ■10,30,000; (iii) INV-8963 dated 05-Dec-2025 (retainer + usage ■5,90,000) ■12,10,000; (iv) INV-9001 dated 05-Jan-2026 (retainer + usage ■5,60,000) ■11,80,000; and (v) INV-9034 dated 05-Feb-2026 (retainer + usage ■5,00,000) ■11,20,000. The aggregate invoiced amount is ■51,60,000. The respondent has paid only ■16,00,000 (10-Nov-2025), leaving a balance of ■35,60,000. In addition, ■7,00,000 towards usage fees for Feb-2026 (invoiced 05-Mar-2026) and ■16,00,000 towards the March–May 2026 retainer period are claimed; total outstanding ■58,60,000.

3. DEFAULT & TERMINATION

The respondent defaulted on the November 2025 invoice onwards and, on 01-Mar-2026, issued a purported termination letter alleging 'defective deliverables and data-security breaches', which the claimant denies. The termination is wrongful inasmuch as the respondent's own utilisation data (hosted on the claimant's console) shows continuous usage of the platform until 28-Feb-2026. The claimant has not been paid for services already rendered and is entitled to the outstanding amounts with interest.
